Chicago, Illinois | 443-365-9834 | sidharthbijo@gmail.com | sidharthbijo.com

EDUCATION

University of Illinois at Chicago

August 2021 - May 2025

B.S. in Data Science | Concentration in Data Processing, Science, and Engineering

WORK EXPERIENCE

Data Analyst Intern | S&S Consulting Inc.

August 2025 - January 2026

- Analyzed property and financial data using Excel (PivotTables, lookup functions) to identify revenue trends and occupancy patterns across multiple real estate assets.
- Automated data cleaning and consolidation workflows with Power Query, reducing manual reporting time and improving data accuracy.
- Developed interactive dashboards and KPI reports using Power BI and Excel to track property performance and support operational decision-making.
- Standardized reporting processes across projects, ensuring consistent metrics and reducing data entry errors.

Systems Engineer Intern | Levi, Ray & Shoup, Inc.

May 2024 - August 2024

- Designed and automated SQL and Python workflows, leveraging AI tools to accelerate development and debugging, reducing manual processing by 30%.
- Integrated data from SOAP-based APIs and SQL databases to support system analysis and reporting.
- Partnered with sales and product teams to analyze key metrics, uncover process improvement opportunities, and deliver business-focused insights.
- Co-developed a Python and PowerShell simulation framework for benchmarking performance.

PROJECTS

Stock Market Data Pipeline | Python, Apache Airflow, AWS S3, PostgreSQL, Pandas

- Built a fully automated ETL pipeline to extract, transform, and load stock market data into an analytics-ready warehouse, implementing a data lake pattern in AWS S3 for raw and processed datasets.
- Orchestrated daily pipeline execution with Apache Airflow, implementing task sequencing and failure handling.
- Integrated PostgreSQL as a data warehouse for downstream SQL analytics.

Real Estate Portfolio Dashboard | Power BI, DAX, CSV Data Modeling

- Designed and developed an interactive Power BI dashboard analyzing Q1 2025 performance across 6 properties tracking \$794K in revenue, occupancy rates, and net income by location.
- Created DAX measures to calculate net income and average occupancy, enabling dynamic KPI reporting across property types and locations.
- Built interactive slicers for real-time filtering by location, property type, and month to support operational decision-making.

Personal Expense Tracker Web Application | Python, Flask, SQLAlchemy, SQLite, Bootstrap

- Designed and developed a full-stack financial tracking application, managing expenses, budgets, and incomes.
- Implemented relational models and CRUD operations in SQLite to store and query structured financial data.
- Developed interactive dashboards for trend analysis and financial forecasting.

CERTIFICATIONS

IBM Data Analyst Professional Certificate | September 2025

Google Data Analytics Professional Certificate | February 2026

SKILLS

Technical & AI Tools: Python (Pandas, NumPy, SciPy, scikit-learn), SQL, R, Java, C++, ChatGPT, Claude, Cursor
Data Engineering & Databases: PostgreSQL, MySQL, SQLite, AWS S3, Apache Airflow, SQLAlchemy, ETL Pipelines
Visualization & Reporting: Excel, Power BI, Power Query, DAX, Tableau, IBM Cognos, Looker Studio, Matplotlib
